Better Breakfast for Brainpower

Your mom was right — breakfast is the most important meal of the day! Teaching children to eat a complete breakfast every morning can start a healthy habit for life. People who eat a healthy breakfast:

• learn better
• have a better attitude
• have better concentration
• have increased problem-solving skills
• are less likely to be overweight
• have better hand-eye coordination

That’s a compelling list of reasons to start the day off right by eating a healthy breakfast! Studies show that children who skip breakfast have trouble concentrating and become inattentive and restless. These problems are linked to low blood sugar and can certainly affect learning.
