**6:22 9. CEO Report – Ray Cancino**

None

**6:23 10. Development Report-Tony Nunez/ Anna Vaage**

The Development Report was presented to the Development Committee through August 31st. Development is about 24% above last year's returns over first two months.

Development saw a big gain in July, bringing in about \$107k as opposed to \$59k last July.

Development moved F2F from July/August to a June timeline. What is going to be realized as before June 30 and what is going to be recognized as after June 30, this fiscal year is being parsed out.

In the August results Development raised about \$30k this year. Last year Development raised about \$50k. The big change was moving F2F from August to June. Development also switched over our printer who does all our materials: calendar, fall mailer, and the annual report. The Annual report dropped at the end of August, and Development is just now getting funds in from that. August this year will look more like September. Across the board Development is doing well. The CB General fund is over \$4k where it was last year. Development is working on bringing in ads that go onto LL vans, and making them cyclical.

The goal is around \$13k, so expecting to be there at end of September/early October.

Development has circled back with the new printer to make sure that processing payments works out. CEO sent out an email about his recommendation to support the Amicus brief.

Development is monitoring for major gifts as a result of that.

We have a new Donor Relations Associate, Laura. She started about a month ago, and has hit the ground running. The Donor Relations Associate is taking over a few projects, including sponsorship packet for all of our three events. The Donor Relations Associate is reaching out to all of the sponsorship prospects and is taking on the reimagining of our donor cultivation policy. She has kicked off our endowment and legacy giving program as well. The Donor Relations Associate has been very engaged, and is working toward creating materials.

**6:36 11. Finance Committee Update – Doug Underhill**

There are two reports in packet, both June 2025 and July 2025.

With regard to the June 2025, the numbers will change as the close out continues. CB started FY 24/25 using -\$667k and ended the FY using only -\$250k. This was made up primarily by ECM and the Path-Cited Grant. WIC and the FRCs were the beneficiaries of that. July 2025: Even though CB is not very far into the year, it has changed a great deal since the board

approved budget. CB's budget currently has -\$278k in prior year funds, and is already projected to be positive \$58k. A new funding sources came in to increase our projections. WIC, ECM, EED have received a large amount of additional one-time revenue, the cost of care plus. This has allowed us to retain staffing and add expenses which allowed us to increase indirect. ELD: The ADA is up to 72 which is up to pre-Covid levels, and will only go up from there. MOW started the fiscal year -\$222k in prior year funds, but NCIP funding came back. Many other programs are running flat, the negative in the FRCs is to balance the budget back to 0. CB is waiting to see if the agency is going to be recipients of Path-Cited, Round 4. CB has done well on all of the reporting and increasing of case numbers. AAA is looking at changing the funding structure from capitation based to receive \$600/per client to fee for services model. The FRCs have brought in additional funding including a \$300k from Packard Foundation for Eviction Defense over two years. CB also has a potential contract with probation for \$107k. Things are positive from June to the present date, this typically happens. Sunlight Giving has granted 3 more years at \$165k and \$30k for immigration work. CB is really fortunate to receive funding in these conditions.

Minutes: Mary Mackenzie

## **FINANCE COMMITTEE MINUTES**

### **5:00 Agenda Review**

### **5:05 CFO Report - Doug Underhill**

#### *1. Department updates and announcements*

The OMB has not yet approved the final single source audit requirements. So the timeline has been set back for the Agency audit. CFO is working with Peter to conduct the EED audit, the CDE is still requiring a program audit, with a 12/15 deadline. EED is audited annually, along with a major program with \$750k or more in federal funding.

#### *2. September 30, 2025, Program Budget Summary*

WIC is showing a gain related to ECM services.

EED is even on the year and spent \$710k and their \$2.55M contract in Q1, with other funding it brings EED to \$2.9M overall funding. EED need to increase overall enrollment. They should be fiscally balanced for the year.

ELD saw little change fiscally, and ADA is continuing to increase. ELD will see a cyclical drop in the coming months.

MOW has seen a large shift compared to last month. CFO has worked with the GA over the last few days. There was an issue on how food costs were being calculated for congregate meals. There is still a need to reduce meals through attrition. Meal counts have not dropped as required to be in line with funding. In January MOW typically receives a contract revision.

LL is -\$53k, they did gain back \$19k from the prior month.

The FRCs are doing fine as an aggregate. Three staff members have left in the past 30-60 days. The FRCs did get FEMA funding extended until 1/1/26. CB has hired a clinical supervisor, which will mainly be expensed to the CALC RG, CYMBI – counseling grants. ECM is projected at a loss for the FRCs, they are adjusting personnel to be in line with caseload. CB is still waiting for word on Path-Cited 4.

CACFP finished the federal fiscal year. They have 454 daycare homes, the highest number there has been for several years. They have continued to do outreach.

Admin saw a downward change related to equity pay increases.

Philanthropy is still showing in the negative -\$53k. They began the year with a BOD approved budget using 56K, so they are in line with the budget.

3. *Cash Flow – Money Market – update*
4. *Investments and Funds – October 31st, 2025*

The endowments continue to grow. There was a \$10k donation for MCR given in a stock gift. Cole Strickland is handing us off to another representative at LPL.

The drop in the investment fund is due to the annual withdrawal for maintenance of the LOCR property.

5. *ELD ADA*

The current ADA is the highest ADA since pre-covid, 73.52. They need to continue to increase ADA. ELD PD has been doing a great job, and it's really about having the social workers time to enroll new participants.

## **5:25 Government Shutdown affecting Federal Funding**

CB should be prepared to have additional disruption in funding with federal dollars. CB has asked for potential support for staff for at least 30 days. CB might consider a different approach. Two major programs (WIC, MOW) and a smaller program administratively, CACFP, are federally funded. How much CDPH funding will the Department of Agriculture give to the CDPH? Impacts related to HR 1 are coming mainly in March.

1. *WIC*

This is the cost to operate WIC which is 100% federally funded, and doesn't include ECM. The range is between \$210k-\$230k per month. Personnel is \$2M of the \$2.8M annual budget. Can WIC keep staff on if there is a shutdown and it's not funded? WIC was funded through November 30, and now through December 31. If CB keeps working, will the agency be repaid for that when the government reopens. State WIC (CDPH) couldn't guarantee that. If it's 30 days, it's \$215k-\$220k, if you go 60 days it's \$450k, so do you furlough everyone? Or run with a skeleton staff? There are costs to doing that: WIC still pay rent and other expenses, personnel flight. CDPH had a lot of communication. WIC PD: They said that if government had not opened, CDPH has received some contingency funding through USDA, and could take out a loan through

the state through the end of the year. They are really wanting programs to not send out furlough notices. A lot of programs across the state have union notice requirements. They also didn't want programs to send out notices to participants. The thought of going through this whole exercise at the end of January is daunting. CB should look at a continuity of operations plan. If this happens, then that. Similar to SNAP, there were efforts at the local level to support them. CB should consider some contingency planning to keep the agency going. Plan for the worst, hope for the best. CB may need to start reaching out from the Board level and CEO's level. Certain jurisdictions were willing to assist. WIC got a lot more attention than it did during the previous government closure. CB should be cautiously optimistic. CB is not in a position to fund the benefits. The amount that would be needed is far beyond the \$500k that was thrown out. The president has made it clear besides Finance Chair's point, retribution to CA is at the top of the list. CB needs to be as conservative as the agency can.

2. *MOW*

One of the riders for SNAP is to fund it through the end of the federal fiscal year. A fair amount of what CB sees for MOW is State funding, county CORE grant, still there was a sizable chunk. MOW is funded by 50K in federal funding each month.

3. *CACFP*

It costs \$45k-\$48k monthly to administer CACFP. If funding were to stop, and the program weren't sending out the checks to administer the day care homes, what do you do? Scale down to skeleton crew?

**5:45 Adjourn to Closed Session**
